

Tasemel siseuksed otse tootjalt

Valmistame ja paigaldame puidust uksi inimestele, kes hindavad kvaliteeti ja soovivad ust mõistliku hinnaga. Olgu sinu sooviks kvaliteetne sise- või välisuks, saame sulle kindlalt abiks olla. Valmistame uksi just vastavalt sinu soovitud mõõtude ja kujuga (lisaks pakume ka standard lahendusi).

Peamised materjalid, mida tellitakse on täispuit (sh. väärispuit) ja ristvineer. Kui sa soovid mõnda muud materjali, siis anna meile teada ja täidame su soovi. Viimistlustest kasutatakse peamiselt lakki, peits lakki ja värvi.

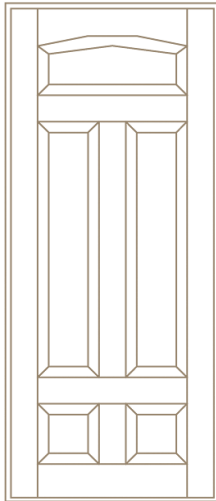

Carpenter siseuksed

Vali endale sobiv uksemudel või kirjelda meile enda erisoovi. Oleme väga paindlikud ja lähme meeeldi "raamidest välja". Allolevatest mudelitest saab valmistada ka välisuksi.

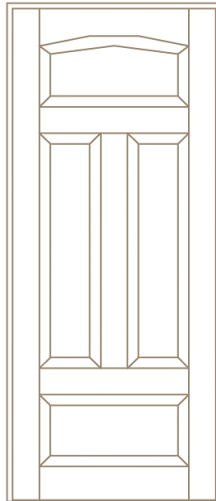

Puidust siseukse tehnilised andmed:

- Ukseleht – paksus 40mm
- Leng – 120×40
- Lävepakk – 40 mm (mänd). Eritellimusena ka saar
